PEGBOARD

Panel Processing was founded over 40 years ago as the nation's pegboard leader. The addition of our fabrication, coating, and screen printing capabilities have changed the way pegboard is offered today. These boards are provided throughout North America for displays, gondola backers, planograms and more. With our multiple locations, Panel Processing has the capacity to produce more pegboard panels than any other fabricator in North America.

- 9/32" (nominal 1/4") and 3/16" (nominal 1/8") Standard Hole Diameters
- Route to Shape
- Custom Spacing of Rows
- CNC Controlled Punches
- 1/2" x 1/2", 1" x 1", 1" x 2", 1" x 3" OC Standard Hole Patterns
- Custom Paint and Finishes

SLATWALL

- 4' x 8' and 5' x 8' Standard
- 3" OC & 6" OC Grooves
- Long & Short Direction
- Custom Edge Finishes
- Custom Fabrication
- Digitally Printed
- Laminated
- Graphics
- Painted

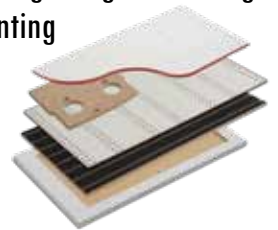

CHALKBOARD

- 4' x 6' to 4' x 10' Sheets
- Cut-to-Size and Machined
- Green, Teal & Black
- Custom Color Matching
- Multiple Substrates
- Multiple Thicknesses
- Silk Screen Printing
- Digital Printing

P.O.P. DISPLAY COMPONENTS

- Pegboard Backs
- End Aisle & Side Kicks
- Base & Base Components
- Edgebanding
- Custom Painted
- Silk Screening & Digital Printing
- Litho Mounting
- Shelves
- Headers

CABINERY, DRAWER PARTS

- Panels and Sheet Stock
- Drawer Sides & Bottoms
- Cut-to-Size or Lineal Strips
- Grooves, Dados, Dovetails
- Tops & Bottoms
- End Panels
- Case Backs
- Shelving

SAMPLE BOARDS

- HDF or Hardboard
- Routed Handholes
- Bullnose or Flat Edges
- Stock Sizes or Cut-to-Size
- Digital Print Coatings
- Lithographic Mounting
- Silk Screening
- Painting

PEGBOARD SKINZ

- 10pt or 12pt Paper
- 100% Scrap (Complete Holes)
- 0% Scrap (Partial Holes)
- Styrene in 100% Scrap
- Kitting Services Available
- Width Range 23" - 48"
- Minimum Length 43"
- 9/32" Holes 1" OC

DRY ERASE MARKERBOARD

- Full & Custom Sheet Sizes
- Custom Colors
- UV Markerboard Top Coat
- Silk Screening
- Custom Routing to Size
- Score Boards & Lap Boards
- Juvenile Furniture
- Menu Boards

SUBSTRATES

- MDF & HDF
- Hardboard
- Laminates
- Particleboard
- Veneer Plywood
- Plywood
- Plastics
- Paper

CUSTOM PAINT AND COATINGS COMPANY

Panel Processing operates its own paint company, PPI Coatings. This ensures quick color matches and a timely shipment of paint to produce your job on-time and to spec.

- Eco-friendly Water Based Coatings
- Clear UV Finishes
- UV Fill and Top Coats
- Markerboard Coatings
- Chalkboard Coatings
- Woodgrain Prints Direct to Substrate
- Metallic Finishes
- Full Color Matching

WOODGRAIN PRINTS

The realistic look of Panel's Woodgrain Prints is achieved utilizing a gravure printing method with a one to three color process that goes directly unto the substrate. This direct transfer print application offers a consistent transfer of ink, a high quality image with repeatable color and consistency.

- Over 20 Standard Colors Available Eliminating High Order Minimums
- Colors Match Several Industry Laminates
- Eco-friendly Paint Process
- Custom Color Matching Available
- Cut-to-Size, Custom Fabricated and Perforates
- Meets all KCMA Standards

Panel Processing

An Employee-Owned Company

Our legacy began more than 40 years ago as the nation's pegboard leader. Today we are America's leading custom flat panel fabricator.

THERMALLY FUSED LAMINATED PANELS

- Thicknesses 1/4" x 1-1/4"
- Vast assortment of designs and solid colors
- 4' and 5' widths
- 8', 9' & 10' lengths
- Multiple cores available
- Sanded edges and ends for safe and easy handling

HIGH PRESSURE LAMINATED PANELS (HPL)

- Thermally fused for permanent bonding
- Ready to use in 48 hours
- No "squeeze out" glue that may scratch HPL surfaces
- Multiple cores available
- CARB certified
- Formaldehyde free resin
- Excellent machinability

thermo pressed laminates

At our Klamath Falls facility in Oregon, we operate a Wemhoner Thermo Fused Melamine Line where we laminate Melamine and Veneer/Melamine Combination Panels. We also operate a components division where we offer premium quality cutting, edge banding and line boring.

- Over 20 standard designs and colors in stock
- Panel thicknesses from 1/4" - 1-1/4"
- 4' and 5' widths in 8', 9' and 10' lengths
- Sanded edges/ends for safe and easy handling
- Multiple cores available: Pine Particleboard, Fir Particleboard, MDF, Plywood cores, FSC® Certified, NAUF, NAF (CARB Exempt) & Specialty Cores
- Cut-to-size, edge banding
- 32mm line boring
- Special packaging
