Description: AAMA/WDMA/CSA 101/I.S.2/A440-08, North American Fenestration Standard/Specification for windows, doors, and unit skylights

Learning Objectives: After completion of this course, participants will be able to:

- ✓ Examine the evolution of window standards and code references
- ✓ Identify the North American Fenestration Standard: (NAFS-08) AAMA/WDMA/CSA 101/I.S.2/A440-08 and Compare it to previous versions (AAMA/NWDA 101/I.S.2-97, 101/I.S.2/A440-05)
- ✓ Recognize and apply NAFS-08 to specify product type, performance level and key performance attributes
- ✓ Understand what the Architectural Window (AW) performance class is, and recognize the benefits to clients by contrasting its performance grade with the other classes
- ✓ Interpret AAMA 2603, 2604 & 2605 performance requirements for organic finishes, for use in specs
- ✓ Apply the concepts of air, water, structural and life-cycle testing to knowledge about building integrity, soundness and energy efficiency (HSW)

How Taught: The CES facilitator utilizes a PowerPoint presentation to provide an in-depth overview of the 2008 AAMA NAFS Standard/Specification for windows, doors and unit skylights. It will be an interactive session that encourages feedback and questions.

A/V Needs: Electrical power and screen for the PowerPoint slide or presentation. The CES facilitator can supply the laptop and projector or utilize your facility's projector and screen.

Target Audience: Architects, specifiers, designers, contractors, owners and other design professionals interested in the building envelope. The ideal audience size can be 10-40 people. This program is basic and meets the needs of professionals at every experience level.

Facilitator Qualifications: All Wojan CES facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training in the field and are considered industry experts.

Costs: There is no cost to bring this program into your firm or chapter meeting.
