

West Traverse Township Forest Property
Notice of Conditions

This forest property, commonly referred to as the "Township '80", is owned by West Traverse Township. The Township does not actively manage this forest, which is allowed to exist and to change naturally.

This forest contains healthy, diseased, dying, and dead trees, some of which may be affected by emerald ash borers, beech blight, insect infestation, and other distressing conditions. Trees or portions of trees may suddenly move or fall at any time and may be especially prone to moving or falling during or after weather involving wind, snow, or ice.

Please feel free to use this property at your own risk for recreational purposes, be aware of your surroundings at all times, and leave this property in its natural condition.
