Wojan Window & Door Promotes Andy Robison to Operations Manager

Charlevoix, Mich. (July 2016) – Wojan Window & Door, the Charlevoix, Mich.- based commercial window and door manufacturer, recently promoted Andy Robison to the position of Operations Manager of their Coldwater, Mich. office and manufacturing facility.

Robison has been with Wojan since 2004 as an Estimator focusing primarily on the projected and double-hung window lines, plus the sliding glass doors, which are all built in Coldwater. Over his 12 years, he acquired an impressive amount of industry and product knowledge, in addition to learning about day-to-day operations of a production facility. All of this has made him an invaluable asset to Wojan, making this promotion an easy decision and certainly very well deserved.

About Wojan Window & Door Corp.

Founded in 1952, Wojan Window & Door Corp. manufactures custom commercial aluminum windows and sliding glass doors from facilities in Charlevoix and Coldwater, Michigan. The diverse product line is rated for a variety of commercial and architectural applications. Wojan is an approved supplier for Hilton® Worldwide and the Marriott® CFRST brands, a member of AAMA (American Architectural Manufacturers Association) and NFRC (National Fenestration Rating Council), and a registered provider with AIA/CES (American Institute of Architects Continuing Education System).
